ER-A280F

Electronic Cash Register

Working Smart—
There's No Better Way
to Grow a Business

- Large, easy-to-view multi-line LCD operator display (192 x 80 dots) with tilt mechanism
- Standard SD card slot for data backup
- 4 built-in RS232 ports for system expansion
- 2,000 standard PLUs, expandable to 16,000

Large Multi-Line LCD for User-Friendly Operation

The backlit, six- or 10-line*, 192 x 80-dot LCD operator display featured on the ER-A280F provides high visibility. It can display up to 24 alphanumeric characters, allowing clerks to view items, prices, and other information even in low-light environments. And for better viewing, the operator display can be tilted to an angle. The ER-A280F also features an easy-to-read, 10-digit LED customer display that ensures customer confidence.

Operator display

Customer display

* Six lines for sales registration, 10 lines for reporting/programming

Scanner-Ready and On-Line Capability with Four RS232 Interface Ports

The ER-A280F comes standard with four RS232 interface ports for system expansion, making it easy to upload sales figures to a PC for efficient data management and analysis. An optional scanner can also be connected for the added advantage of speedy, accurate barcode entry.

Data Backup with SD Card Slot

The ER-A280F is equipped with an SD card slot. SD cards can be used to back up various kinds of data, including daily sales and Electronic Journal data.

Note: SD cards are not included. Consult your Sharp dealer for details.

 The SD logo is a trademark of the SD Card Association.

Electronic Journal

The ER-A280F features an Electronic Journal function that can store up to 9,000 lines of transaction data electronically, thus helping to conserve paper and reduce costs. And for easy reference, the Electronic Journal View function displays transaction data from previous entries.
